

Block 7/25

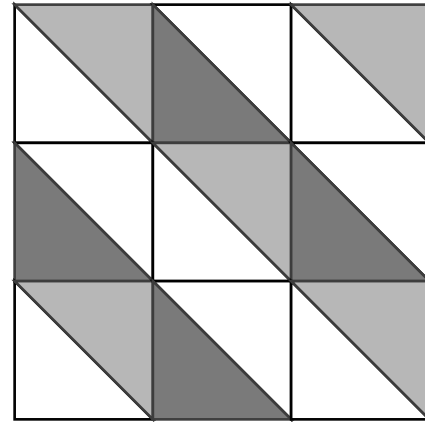

Tidy Rows

One Hundred Eighty-Two Day Solstice Challenge
Hosted by Pat Sloan At Ilovetomakequilts.com

We have been looking at old photos, the shipping department and I. He was scanning negatives from our first home. Apparently we like small homes, it was smaller than this one! But I digress..

What struck me about the photos were all the indoor plants. I had forgotten how many plants I used to have.

I remember our move from the East coast to St. Louis in the middle of the country. And how my little Honda Civic was stuffed with plants! His brother drove his car, he drove the moving van and we had this 'Tidy row' of vehicles moving across the country so we could start our new jobs in a new state.

SQUARE Block is 12.5" x 12.5"
Finished in the quilt is Size 12"

Tidy Rows is made up of large HST, you can bust a LOT of scraps making a full quilt. See the last page for 2 different layouts.

The Solstice challenge spans 182 between the winter and summer Solstice this year. Well be making a quilt with 25 blocks... and Somewhere along this journey I'll give you a setting.
